Isme jitna bhe .md files hai haar [ek.md](#) files se bhout hee jada inspiration lena and implement karna

Isko haar ek pages and files and folders mai add karna kitna bhe chota ya bada pade ho ye kitna bhe chota ye bada files ye folders ho sabmai implement karna pls

[getdesign.md](#) ka jo link hai uska bhe use karna please

And haar ek game mai and haar ek game ke files and folders and haar ek game mai and files and folders mai bhout hee jada logic and mind and deepresearch and deeplogic and deep mind and sab cheez karna se phela bhout hee jada logic and mind ka use karna and ek game developer ka bhe agents skill and uske jesa mind and logic ka use karna and also

Haar ek game ko sahi se banao jesa maine bola hai pura logic and mind logic and mind and deepresearch and deeplogic and deep mind and sab cheez karna se phela bhout hee jada logic and mind ka use karna and ek game developer ka bhe agents skill and uske jesa mind and logic ka use karna and also

Add more levels on each games with logic and mind pls

Add more levels on each games with logic and mind pls

Haar ek game ka logic and and haar ek game ka requirement alag alag hota hai to uske according uss par work kro bro

Abhi ek bhe game sahi se work nhi kar raha hai website mai kuch bhe sahi se work nhi kar raha hai yaar pls aacha se soch samaj kar work karo pls

sab cheez par work karo pls and aacha se read karke soch samaj kar pura logic and mind and dimah and deepthinking and deepresearch ka use karna pls

tumko jitna jada deepresearch and deeplogic and deepmind and deepthinking and bhout hee jada logic and mind ka use karna and jitna bhe agents skills hai world mai sabka use karna pls pls

sab cheez aacha se 5 se 6 baar padh kar work start karna pls

isko mainly goverment exams and codes ke liye ready karna hai to jinta bhe goverment exams hota and code mai jo words use hota hai sab rahna chiaye

backend and frontend ka folder alag alag chiaye mujhe mai waring de raha hu tumko and and database ke liye mongoddb atlas ka use karna api key mai baad mai de dunga

Look brother mujhe ek game banana hai and game jo hai fully professional and animated and and modern hona chahie iske liye Tumko Jo library jitne tools jitne github repo use karna hai
Tum kar sakte ho tumko Jo use karna hai tum kar sakte ho
Mujhe jo hai frontend backend ke liye अलग-अलग folder chahie
And Mujhe har EK chij ke liye ek alag folder chahie
And Dekho main tumko साफ-साफ Bata deta hun Tum ko jis language mein code karna hai karo unko frontend man Hai Kisi aur dand bhed mein code karne ka Tum Karo Tumko backend ka jis language mein Tumko code karne ka Mana karo
Tumko Jo library use karna hai karo Tumko jitna language use karna hai karo bus Mujhe fulli functional and working Banakar do

Tumko jitna bhe libraries and tools and repo and technologies use karna hai tum kar sakte ho

Mujhe har EK chij ke liye alag se files and folder chahie isko hamesha tum apne mind mein rakhna
Game ka naam rahega main tum apne according seo ke according choose karna jo sabse best Naam hoga SEO mein vahi chuj karna
Ab main tumko game ka details batata Hun to acche se usko samajhna and Jo bhi Tumko karna ho uske calling karna hai theek hai
Main ek typing game banana chahta hun
Ismein jo hai user apna typing skill improve Karega by the playing games
And ismeime multiple games rahega and
And multiple games mein multiple levels rahega
And Kisi ek certain task ko complete karne ke bad aapka lable one se level 2 Kiya jaega
Aise hi level 2 se FIR level three Kiya jaega
Matlab aapko game khelna hai and game khelne ke sath aapka typing bhi improve hoga mil yahi chij hai and ismein multiple games rahega typing Se Hi related jismein aap typing karenge and aapka jo hai level up hoga and level up hone ke sath sath aapka ek dashboard create hoga dashboard mein aapka pura detailing rahega har EK user ka alag detailing rahega
Usmein aapka pura detail rahega ki aapka typing speed kaisa hai kahan per improve karna hai kahan per aapka galti Ho Raha Hai Kaun Sa lettee aap sahi se type nahin kar pa rahe ho
Matlab kuchh jo hai ismein games to rahega Hi rahega yah to main bol hi raha hun but kuchh Aisa bhi rahega jo ki professional logon ke liye Rahe like Kisi Ko agar game khel kar nahin typing speed apna increase karna hai to vah normal professional way mein jakar apna typing speed increase kar sakta hai
To professional Ve ke liye bhi at least 2 se 3 do SE teen professional chijen to rahani chahie atlist and game ke liye to bahut sare multiple games hone chahie
And sare games ke liye अलग-अलग level hoga अलग-अलग task hoga
And sare games and sab chij Mujhe Apne website mein fulli professional animated and modern chahie and bahut hi jyada professional
Kuchh bhi Ai generated nahin lagna chahie
Iske liye Tumko jitna apna skill Karna Hai Tum Karo Tumko jitna
Tumko jitna bhi agent ka feel use karna hai tumko jitna bhi repo use karna hai tumko jo bhi sab chij use karna hai sab chij karo bus sab chij professional hona chahie and modern hona chahie and thoda bahut animated hona chahiye
and ek [readme.md](#) file create karna jo ki fully professional and modern and animted ho and usme mer project ke bare mai sab cheez mention hona chaiye jesa baki badi badi comaoanies ke github mai mention hota hai read me file mai and fully porfeesional and modern and profeesional icons ka use karna and fully mmodern and bhout hee jada detailing rahna chaiye tech and present work and furture work bhe hona chaiye and sab cheez aaacha se hona chaiye pls
and multiple games add karo like professional car racing and many more games like fighting and many more pls and sab fully working mai hona chaiye and real lagna chaiye pls real hee lagna chaiye pls sab cheez
And professional matlab professional modern matlab modern yah nahin ki Ai generated nahin lagna chahie kuchh bhi
and sabse important baat fully responsive hona chaiye haar ek device ke liye chote se chote and bade se bade device ke liye fully responsive hona chaiye
and mai kuch galat bhe type kar raha hu to bhe mera wpn count ho raha hai and mera rank badh raha hai pls yaar logic and mind and deepreseach and deepthing and deeplogic ka use karna bola hai maine mai kuch galat karunge to wrong mai count hona chaiye na yaar pls baat ko samjho accuray bhe galat galat bata raha hai jabki maine tumko sab cheez bata diya jitna bhe skills and agents skills use karna hai to karo to itna chota sa mistake q ho raha hai tumse bhai sab cheez mai tum apna logic and mind ka use karo pls
and abhi bhe games real nhi lag rha hai yaar
